PUT YOUR WINE IN THE SPOTLIGHT

EVENT COOLER®

OPTIMAL VISIBILITY OF YOUR WINES AT EVERY WINE TASTING EVENT

Whether it's a perfectly executed wine presentation, your restaurant business, or a good bottle of wine with friends, the EVENT-Cooler guarantees the highest wine enjoyment.

The highest flexibility offered by the EVENT-Cooler's independent operation from electricity makes you independent of external circumstances and allows your creativity to run free.

The unique design of the EVENT-Cooler provides the perfect setting for your wines and enhances the palate pleasures with visual delight.

THE ADVANTAGES OF THE EVENT COOLER

The flavour experience of a wine is strongly influenced by the drinking temperature. The wine must be at its best when tasted for the first time in order to make the customer aware of the full potential and complexity of the wine.

Poorly tempered wines impair the flavour and drinking pleasure, and EVENT COOLER was specially developed to solve this problem according to the needs of winegrowers and restaurateurs.

PERFECT DRINKING TEMPERATURE FOR UP TO 10 HOURS

Your wines retain the optimum drinking temperature for up to 10 hours and guarantee maximum wine enjoyment right down to the last drop. You create the optimum conditions for your customers, both during your presentations.

EASY HANDLING AND CLEANING

No time-consuming training is required to operate an EVENT Cooler, the function is explained in just a few seconds. Cleaning is also very quick and easy thanks to the lack of corners and the removable front screen.

LABEL PROTECTION

Because the bottles are not chilled in water, the wine label remains intact for optimal presentation of the wines.

CUSTOMISED ENGRAVING

The front screen can be personalised with your company logo or text.

COMPLETELY FLEXIBLE WITHOUT ELECTRICITY

Thanks to the EVENT-Cooler's powerless operation, you are absolutely flexible. Whether it's for trade fairs or wine tastings, or if you want to guarantee short distances with optimum quality in your restaurant.
